

David Elliot Eisenbud, M. D., M.B.A.

I am a vascular surgeon with particular expertise in wound evaluation and management; also an experienced early stage life sciences entrepreneur and investor with proven skills in private equity fund raising; finance; project management; regulatory affairs; clinical trials; and managing organizational growth.

2007-present Medical Director, Overlook Hospital Wound Healing Program, a 5 day per week inpatient and outpatient disease management program including hyperbaric medicine. Over the period of my directorship patient volume has tripled; we have begun participation in clinical research; and we have initiated an annual one day symposium featuring a panel of the nation's experts in healing.

1995-present Managing Partner, Millburn Surgical Associates (Millburn, NJ); multi-physician group performing general and vascular surgery, noninvasive vascular laboratory evaluations, and wound care. Supervise all aspects of operations, finance and strategic planning. I have been a member of the group since 1988 and a partner since 1991.

1995-present Consultant to multiple biotechnology and medical device companies in the areas of strategic planning, product development, clinical testing and marketing. Past and present clients include Johnson & Johnson; Medtronic; Advanced BioHealing; Medline; Net Health Systems; Organogenesis; Medtronic; WL Gore; Celleration; CoDa Therapeutics.

2003-present Founder of Advanced BioHealing, Inc., a medical device firm commercializing cell-based wound healing therapies. 2003-2005 President & CEO; 2006-7 Executive Vice President and Chief Medical Officer. Currently serving as a consultant and Medical Director.

- Raised \$2.4 million Series A angel and \$8.0 million Series B institutional (Canaan Partners and Wheatley Partners) financing as CEO; helped to raise an additional \$25.5 million Series C round as EVP

- Wrote and had approved three Investigational Device Exemptions (IDEs)
- Designed, recruited personnel and clinical sites, supervised and was Medical Monitor of a 9-site pilot stage medical device registration trial
- Currently Medical Monitor of the DEVO trial of Dermagraft for treating venous leg ulcers (>50 sites, 500 patients)
- Project leader on the cGMP manufacturing of cell banks and a cell-containing wound healing product
- As Executive Vice President conducted the due diligence on acquiring Dermagraft and TransCyte from Smith & Nephew and hired the first 20 people to staff ABH's factory to manufacture these products
- As Chief Medical Officer I presided over Dermagraft, a marketed wound healing device, supporting sales reps in their calls on physicians; investigating customer complaints; serving on various quality control committees; and interacting with FDA
- ABH grew from a one-person virtual company in late 2003 to a 300+ person significant player in the wound care space with revenue in excess of \$120 million annually by 2010

- 2000-2004 VP—Strategic Planning for TyRx Pharma, Inc (NewBrunswick, NJ), a drug-delivery and tissue engineering company commercializing products based upon its proprietary base of novel resorbable polymers.
- Raised \$8 million over four years by giving presentations at venture capital and angel investor conferences
 - Drove the application of the company's polymer technology to one drug-delivery application and one medical device (cardiovascular stent) application
 - With the President, created a milestone- and royalty-based agreement with a larger medical device company for stent development that brought TyRx over \$7 million in revenue and equity investment
- 2003-2005 Director, Newark Beth Israel Medical Center Wound & Hyperbaric Oxygen Center
- 2002-2003 Chief Executive Officer, Institute for the Advancement of Wound Management (providing educational seminars in wound care.)
- 2003-2004 VP—Strategic Planning for Seedlings Life Science Ventures (New York, NY,) a medical device company developing intellectual property in the areas of urology and drug delivery.
- 2000-2004 Consultant to Ortec International (NY, NY), a tissue engineering and wound healing company, in the areas of marketing, strategic planning and regulatory affairs; significantly involved in securing two FDA approvals and submitting a third PMA which is pending.
- 1999 Consultant to Digital Operator Consultant Systems, Inc.(NY, NY), a medical software company, in the area of strategic planning and finance. Wrote the initial business plan and secured first round of angel financing.

- 1998-2000 Consultant to M. J. Whitman Inc. (NY, NY), performing due diligence on early stage medical companies to assist in investment decisions.
- 1997-1998 Consultant to the Vice President of Strategic Planning at Pfizer, Inc. (NY, NY) evaluating several new medical device acquisitions and assisting marketing of the Schneider stent.
- 1997 Investor Relations consultant to Pharmanetics Inc. (Raleigh, NC); major role in writing all the press releases and the 1997 annual report.
- 1993-2003 Founder and Director, Union Hospital Wound Management Center, Union, New Jersey
- 1990 Co-founder of Active Nursing Associates (Perth Amboy, NJ), a firm providing private home nursing services.
- 1987-1989 Founder and Executive Vice President, GEO International (NY, NY), a wholesale manufacturer of carpeting, lighting and furniture.
- 1987-1989 Co-founder and Secretary/Treasurer of Archetype Gallery (NY, NY), an art-furniture gallery.

EDUCATION

- 1997 Master of Business Administration (Finance), Stern School of Business, New York University.
- 1981 Doctor of Medicine, Pritzker School of Medicine, University of Chicago.
- 1979 Master of Science (Chemistry), University of Chicago.
- 1976 Bachelor of Science (Chemistry), Yale University.

RESIDENCIES AND FELLOWSHIPS

- 1986-1988 Fellowship in Vascular Surgery, Newark Beth Israel Medical Center, Newark, New Jersey.
- 1981-1986 Residency in General Surgery, Cornell University Medical Center and Memorial Sloan Kettering Cancer Institute, New York, New York.

CLINICAL RESEARCH ACTIVITIES

FDA Registration Studies:

2005 Protocol Design, IDE submission, Medical Monitor and Sponsor: An Initial Evaluation of the Safety and Activity of Celaderm™ Treatment Regimens in Healing Venous Leg Ulcers (Advanced BioHealing, Inc.)

2009 Medical Monitor: A Prospective, Multi-center, Randomized, Controlled Clinical Investigation of Dermagraft® in Subjects with Venous Leg Ulcers DEVO-Trial (Advanced BioHealing, Inc.)

2009 Principal Investigator: A Phase II Randomized, Double Blind, Placebo Controlled Dose Finding Study Investigating the Efficacy of HP802-247 in Venous Leg Ulcers (Healthpoint, Ltd.)

2010 Principal Investigator: A Multi-Center, Randomized, Controlled Clinical Trial to Evaluate the Safety and Effectiveness of Integra® Dermal Regeneration Template for the Treatment of Neuropathic Diabetic Foot Ulcers (Integra LifeSciences Corp.)

2010 Wrote and achieved approval of IND, Principal Investigator: Trial of compassionate use of HP802-247 to treat venous leg ulcers in subjects who have failed multiple other healing technologies (Healthpoint, Ltd.)

2010 Medical Monitor: A Prospective, Multi-center, Longitudinal, Cohort Study of Dermagraft® in Subjects with Venous Leg Ulcers: A Long-term Follow-up to the DEVO-Trial (Advanced BioHealing, Inc.)

Non-FDA Registration Studies:

2009 Principal Investigator: Accuracy and prediction of healing using laser-assisted three-dimensional digital wound measurement vs. ordinary clinical wound measurements (Aranz Medical Ltd.)

2009 Principal Investigator: A prospective, two-center, randomized, crossover clinical investigation of Marathon® and Cavilon™ to treat peri-wound maceration in subjects with venous leg ulcers (Medline Industries, Inc.)
